

## Avadex Factor Tank-mix Compatibilities

The following tank mixes have been tested for physical compatibility with Avadex Factor and will mix at recommended rates of use in the sprayer tank. These tests do not check for any adverse crop effects or product performance therefore use is at the user's own risk. Gowan Crop Protection Ltd gives no warranty and will accept no liability for crop safety, antagonism or product performance.

*compatible in a minimum 200L water/ha			

All brand names used in this list are trademarks of manufacturers in which proprietary rights may exist. Before using any tank mix, consult and comply with the recommendations of the partner products. Each product should be added to the bulk of the water in the spray tank separately and thoroughly mixed before adding the next product. Always use constant agitation at each part of the process and spray immediately. Use plant protection products safely.

**Always read the label and product information before use.**
